EDUCATION

IILM University

Greater Noida, India

Bachelor of Technology in Computer Science and Engineering

Expected Graduation: Aug 2027

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Vite, Responsive Design

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Postman, Vercel

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

PROJECTS

TripNest – AI-Powered Travel Planning Platform | React.js, Vite, Node.js, Express.js, REST APIs

2025

- Built a full-stack travel platform enabling users to discover destinations, create and manage multiple trips, and collaborate with friends, using a reusable, component-based React.js architecture
- Implemented an AI-assisted trip planning experience and a memories feature for organizing travel photos, improving overall usability
- Developed and integrated REST APIs with a Node.js/Express.js backend to power dynamic itinerary content, and optimized client-side routing for faster page transitions

Human Heart Disease Prediction System | Python, Scikit-learn, SMOTE

Dec 2025

- Built a classification pipeline using Logistic Regression and Random Forest models to predict heart disease risk from multiple health indicators
- Applied SMOTE to correct class imbalance across the training data, improving detection reliability for high-risk patients
- Performed end-to-end data preprocessing and feature selection with Pandas and NumPy to support early medical intervention

INTERNSHIPS

Python Developer Intern

Jul 2025 – Aug 2025

Shadowfox

Remote

- Developed and tested multiple Python scripts and applications under senior developer guidance, strengthening code quality
- Performed data collection, cleaning, and analysis using Pandas and NumPy across multiple datasets
- Collaborated with senior developers and cross-functional teams to debug issues using Agile practices

Web Developer Intern

Jun 2025 – Jul 2025

Prodigy Infotech

Remote

- Developed multiple responsive web applications using HTML, CSS, and JavaScript, improving usability across devices
- Optimized application performance, accessibility, and cross-browser compatibility, enhancing user experience
- Managed source code with Git/GitHub and communicated progress with the team while deploying to cloud platforms

CERTIFICATIONS

AWS Academy Graduate – AWS Academy Machine Learning Foundations | Web Development (Udemy) | Java Programming: Beginner to Master (Udemy)

HACKATHONS & PARTICIPATION

Contributed to Google Cloud Agentic AI Day, organized by Hack2Skill (Feb 2025) | Participated in Bharatiya Antariksh Hackathon 2025, focused on space-tech innovation
